Art Unit: 2871

Allowable Subject Matter

- 1. Claims 1-16 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:
- 3. The prior arts of record do not anticipate or render obvious to one skilled in the art an in-plane switching type liquid crystal display device comprising various elements as claimed, more specifically a plurality of voltage lines arranged parallel to the plurality of gate lines crossing the plurality of gate links and applying a common voltage to a liquid crystal at the outer area of the thin film transistor array to reduce a gate voltage at the plurality of gate links.
- 4. The closest references, USPAT 6,335,770 (Komatsu) and USPAT 6,456,350 (Ashizawa) disclose an in-plane switching mode liquid crystal display device comprising a plurality of common voltage lines. Similarly applicant's admitted prior art (AAPA) shown in Fig. 4 discloses an in-plane switching mode liquid crystal display comprising a plurality of common voltage lines parallel to the gate lines. However, in Komatsu the common voltage lines (common bus line 103) is grounded through a common pad and in Ashizawa the plurality of common bus lines (CC1, CC2, CC3) are supplied to all of the common electrodes via the common voltage signal lines CL with relatively short routes. Further, the AAPA discloses that the common voltage lines apply voltages to the thin film transistor array. Therefore, none of the prior arts alone or in combination with any other references meet the claimed means plus function recitations in an in-plane switching mode liquid crystal display device.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tarifur R Chowdhury whose telephone number is (571) 272-2287. The examiner can normally be reached on M-Th (6:30-5:00) Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim can be reached on (571) 272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
